Urgent letter.

To

The Secretary to Government,
Public Works Department, Bombay.

No. 106/H of 1943. Poona, 1st February 1943.

Subject:- Draftsman for the Sanitary Project Office
Sanction for the appointment of -

A post of a Draftsman has been sanctioned on a scale of Rs. 90-5/2-140 for the new Sanitary Project Sub-Division as per G.M., P.W.D. No. 6250/36-E dated the 5th January 1943. I have already spared one draftsman for appointment as an overseer in the Aundh Hospital Sub-Division and there is no other - competent hand available for the job from amongst the establishment under me. No applications from outside have also been received from competent persons for this post, because there is derth of experienced hands at Poona, as most of them have been engaged on the urgent military and war works round about Poona, However I have been able to obtain the services of one Mr.B.P.Oak,B.E.

(Civil)

(Civil) now serving as the Chief Officer, Satara Municipality, for this post. He has gained varied experience in the B.B.& C.I. Railway, Ratnagiri Local Board and the Satara Municipality during the last 18 years after taking up his degree; hence he is considered to be a suitable person for the post. His present pay is Rs. 150/- but is willing to accept Rs. 140/- the maximum of the grade. I therefore request you to sanction the maximum pay of Rs. 140/- p.m. for Mr. B. P. Oak as my draftsman.

2. The C.P.H.E.to Govt.recommends that pp1-2
a pay of Rs 140 p.m.may be sanctioned for Mr.B.P Oak,B.E., who is proposed to be appointed as a draftsman in the scale of Rs 90-5/2-140. Mr. Oak is at present employed as a Chief Officer,Satara Muny. He has gained varied experience for 18 yrs after taking up his degree. For fixing the pay on previous service basis,service which is of a type similar to that of the post to which the person is to be appointed is to be taken into account-vide para.7 of G.R.No.2648/36,dated the 25-9-41. It is not known inwhat capacity Mr.Oak was employed in the B.B.& C.I.Ry.,Ratnagiri Local Board etc. The C.P.H.E. states p1 that there is dearth of experienced hands at Poona owing to the urgent mily.and war works. It is accordingly for consideration whether the pay of Mr. Oak may be fixed at Rs 140 p.m.as a spl.case,in consultation with the F.D.

BKR
3/2

Rlsd
3/2/43.

C.P.H.E does not state the capacity in which Mr Oak served for 18 years. I consider Rs 140/

6250/36/2481 4 of 8

for a draftsman as rather high, even if Mr Cook may be good enough for that salary in other respects. It is not known if the post was advertised. The initial salary of Bundy leaves no margin for increments.

J
3/2/43

I agree. I think the post should be advertised, if the case already has not, & in any case pay should be granted only in accordance with approved post service & in the proper scale.

MM
4/2

I agree Anyway the Cornish job is a short one for which a strong man should do & Mr Cook is more experienced in making [illegible] CRA 4/2

Urgent letter.

To

The Secretary to Government,
Public Works Department, Bombay.

No. S-W-3-27- 8 & 9 of 1943. Poona, 27th January 1943.

Subject:- Jamihal water supply to Hubli & Dharwar.

It is seen from para 6 of Government letter P.W.D. No. 6250/36-E, dated the 5th instant, according sanction to the formation of a Project Sub-Division that the survey work in connection with the Jamihal water supply scheme has to be carried out by the Project Sub-Division as a provincial work. In this connection, I may point out that the Municipality of Dharwar had credited in February 1941 to the Executive Engr. Dharwar Division, a sum of Rs. 5,645/- 'on account of estimated amount for survey preparation and plans and estimates for additional catchment area for Kelgeri tank', that the Executive Engineer, Dharwar Division has incurred a liability of - - Rs. 362-8-0 against the sanctioned survey estimates (please see G.R., P.W.D.No.4589/36-M, dated 22.1.1943) and that a sum of Rs. 5,282-8-0 is still available with the Executive Engineer, Dharwar Division. Has this amount now to be paid back to the Municipality, as in view of the starting of survey work for Jamihal scheme, no investigation in respect of any other alternative scheme would be necessary? I am of opinion that as the cost of the Jamihal scheme has to be apportioned ultimately between the Dharwar and Hubli Municipalities, the Executive Engineer, Dharwar Division may be asked to retransfer this amount to me by advice of transfer credit leaving the question of adjustment to be decided later. Orders of Government are solicited.

D.A.Nil.

To

The Secretary to Government,
Public Works Department, Bombay.

No. A-1-33- X /3 of 1943. Poona, 25th January 1943.

Subject:- Establishment for the Sanitary Project Sub-Division.

In connection with the appointment of a senior clerk in the new Sanitary Project Sub-Division, I would point out that the incumbent to be selected for this post should be one with experience in the correspondence relating to the Public Health Schemes that are now in progress in the Province and also of schemes as are under contemplation by the different local bodies. He should also be capable of dealing with correspondence with the various Executive Engineers and other officials.

2. With the opening of another two Sub-Divisions, viz. Ambernath water supply sub-division and the Aundh water supply sub-division, I have had to send two or three experienced men from my office for administrative convenience for work in those sub-divisions. I cannot send any more to the new Project Sub-Division without seriously impairing the efficiency of my office. Government are also aware that in these days, when all the qualified hands are absorbed by the Defence Department on a much higher starting salary, it is very difficult to pick one from amongst outsiders.

3. In the circumstances I enquired Mr. S. N. Harip, the late Head Clerk of my office whether he would be willing to be appointed as the Sub-Divisional Head Clerk of the new Project sub-division on a salary to be fixed in consonance with his previous experience. I am glad to say that Mr. Harip is willing to accept the job. I trust that Government will be pleased to empower me to appoint Mr. Harip on Rs. 72/- in the grade pay sanctioned for the Sub-Divisional clerk. His pay at the time of retirement was Rs. 140/- and he is getting a pension of Rs. 66-4-0. The proposed pay together with the pension He is getting will not exceed

riginal pay he was drawing at the time of his [illegible]

Harip superannuated in November 1941. He is hale and healthy.

4. Early orders are solicated, as the Sub-Division is start functioning from 1st February 1943.

Consulting Public Health Engineer to Government.

2. For the Sany.Project Sub-dn., the following clerical estabt. is sanctioned in G.O.No.6250/36-E, dated the 5-1-43:-

	Scale
(a) Two clerks.	Rs 25-5/3-75 (Rs 30 to a qualified clerk).
(b) One clerk.	Rs 25-5/4-55 (Rs 30 to a qualified clerk).
(c) One typist.	-----do----

In the circumstances explained, the C.P. H.E. to Govt. proposes to appoint Mr.S.N. Harip, as Head clerk of the Sany.Project Sub-dn. on Rs 72 p.m. plus pension of Rs 66-4-0 p.m. in the scale of Rs 25-5/3-75. Mr.Harip superannuated in Nov.1941. The reemployment of superannuated persons is governed by B.C.S.R.330. Such persons can be employed on public grounds and in a purely tempy. capacity.

3. The pay of Rs 72 p.m. proposed for Mr.Harip does not adjust in the scale of Rs 25-5/3-75. It is for consideration whether Mr.Harip may be re-employed for a period of one year in the first instance; if so, what pay may be allowed to him, in addn. to the pension of Rs 66-4-0, in consultation with the F.D.

BKR
2/2

3/2/43

Mr Harip may be given a pay of Rs 70/- in the scale of Rs 25-5/3-75- in addition to his pension, I think he appointed for one year in the first instance.

.B.

Submitted with ref: to G.L.No.6250/36-E dated the 15-2-43 and the notes underlying it. 2-3.

2. The S.Es. of Central and D.I.Circles are unable to spare any Sub-divisional clerk for apptt. in the Sanitary Project Sub-dn. The C.P.H.E. did not address the S.E.,N.C. and the S.E.,S.C., in the matter as it was presumed by him that none of the clerks working under them will be willing to come on transfer from Poona from distant places. The C.P.H.E. has accordingly appointed Mr.S.N.Harip, retired Head clerk, on Rs.72 p.m. as first Sub-divisional clerk on the tempy.estabt. of the Sanitary Project Sub-dn. with effect from the 8-3-43, subject to the approval of Govt. It is obviously intended that Mr. Harip should draw a pension of Rs.66-4-0 in addition to pay.

3. Pl.see the O.N. dated 3-2-43. Mr. Harip may be granted a pay of Rs.70 p.m. in the scale of Rs.25-5/2-75 in addition to his pension of Rs.66-4-0 p.m., for a period of one year in the first instance, as suggested by the Dy.Secy., in consultation with the E.D.

No. 33. 8503 of 1943. Poona, 17th August 1943.

Subject:- Mr. V. R. Malegaonkar, Overseer on workcharge establishment - fixation of pay -

I have to report that Mr. V. R. Malegaonkar has been appointed by me as a workcharged Overseer from 2.5.1943.

2. Particulars regarding his date of birth, educational qualification etc., are as noted below:-

(1)	Date of Birth:-	25th February 1918.
(2)	Educational qualification:-	D. C. E., Poona Engineering College.
(3)	Whether qualified for appointment:-	Yes.
(4)	Domicile and whether eligible for appointment under Rulex 4 of B.C.S.C.Rules.	Shetphal, Taluka Indapur, Poona Distt.
(5)	Details of past service:-	Nil.

3. Mr. Malegaonkar joined his duty on 2nd May 1943 and he is being paid at Rs. 50/- p.m. as reported in this office No. A.1.33/7243 of 19.7.1943. I request that his pay may please be fixed at Rs. 70/- p.m. with effect from the date of his appointment as per G.M., P.W.D. No. 4126/36-E dated the 29th October

Submitted. Partly.

2. [illegible]. The C.P H.E.has appointed Mr.V.R.Malegaonkar,D.C.E.,Poona as work charged overseer on Rs 50 p.m. with effect from the 2-5-43. Mr.Malegaonkar is overage by about 2 months and 8 days and the age limit is required to be relaxed in his case. The C.P.H.E.requests that the overseer's pay may be fixed at Rs 70 with effect from the date of his apptt.and his (Overseer's) overage may be condoned as a spl. case.

3. In G.M.No.4126/36-E,dated the 16-4-41, the S.Es.of Circles have been authorised to fix the higher starting pays of overseers on the work charged estabt.subject to the maximum limit of Rs 100 p.m.in the case of graduates in Engrg.and Rs 70 p.m. in the case of Diploma holders. It has been ordered that these work charged overseers should not be granted an increment in pay or be promoted to the tempy.or pt.estabt.without the orders of Govt. Mr.Malegaonkar has no previous experience. There is a great difficulty in securing the services of suitable and qualified overseers. In the circumstances it is for consideration whether the C.P.H.E's requests may be sanctioned subject to the condition that the overseer should not be granted any increment in pay without the orders of Govt and he should be

A1

x Copy attached of the increment marked A. See Leave

be continued on the work charged estabt. only, till a suitable qualified person within the prescribed age limit becomes available. If so, the papers may be referred u.o. to the P.& S.D. and the F.D. before draft orders are put up.

I

It is considered that :-

i The Age Limit may be relaxed

ii The salary may be raised to Rs 70/- p.m. from the date of Govt order a nat with retrospective effect" from 2-5-43"

iii The condition as detailed at "D" in The ~~N~~ at page 3 ante may be laid down.

Subject:- Neerasagar Water Supply Scheme.

...

No: 4305 of 1945-46.

Municipal Office,
Dharwar, 3 -1-1946.

From

Shrimant B. A. Desai,
President,
Municipal Borough, Dharwar.

To

The Consulting Public Health Engineer
to the Government of Bombay, Poona.

Sir,

In inviting your kind attention to your D. O. letter No.7685, dated the 13th September 1945, on the subject noted above, I have the honour to enquire if the new Post-War Project Sub-Division Office, expected by you to be opened at Belgaum shortly, has been opened and the work of preparation of plans and estimates in regard to the - - Neer-Sagar Water Supply Scheme has been taken up in hand, and if so, to what extent it has progressed.

With a view to keep you in tough with the water supply situation at present at Dharwar, I may just add the following few lines. As the rains have so far failed, the Kelgeri tank is not replenished with fresh water this year. There is about five and a half feet of water in the tank and it would be sufficient hardly for about two months and a half. The total rainfall to date, as recorded, is only 19.81 inches, while the average is about 30 inches. There are - - however no prespects of any further rains till the month of June or July. The Collector being anxious of the situation enquired [illegible] as to what measures the Municipality would undertake to tide over the difficulty of the [illegible] scarcity of water supply and he was informed that the Municipality is thinking of supplementing the water supply partly by the present nine bore pumps and partly by installing some motors to pump water from local draw wells as far as possible besides keeping all the public wells cleaned and ready for public use. In spite of all this, there is every possibility of the scarcity of water supply to the town being very grave. In order to avoid such an awful situation in the supply of water to the town, it would be a great boon to the citizens of Dharwar to know that the Neer-Sagar Scheme has been taken up in hand.

Owing to the failure of timely rains in this part of the Province, failure of crops has been noticed not only in this part of the country but also throughout the Bombay Province. As a result of this 172 villages in southern and south-eastern part of Dharwar District have been declared as scarcity areas and it is contemplated that 250 more villages in the eastern part of the Dharwar District are to be declared as such. From this it is clear that the largest [illegible] number of villages in this District, as compared with any other District in the Province, are scarcity areas. The Government is - - seriously considering to commence relief measures for alleviation of the people in the scarcity areas. Due to these circumstances, it would be in the fitness of things to start the earth work etc., of the Neer-Sagar Water Supply Scheme which is bound to serve three great important purposes:-

(1) To engage peasants and the labour classes of this District as well as those of the adjoining Bijapur District.

(2) To provide for the permanent measure of water supply for both the towns of Dharwar and Hubli consisting of a population of more than a lac and a half.

(3) Since the originators of this Scheme have contemplated that the surplus water of this tank will be useful for irrigating [illegible] hundreds of villages in the paddy growing taluka of Kalghatgi, the Scheme will naturally serve this purpose also.

It is therefore urged that the Government will be pleased to take up this Scheme as a Famine Relief Measure as it is bound to

serve larger purposes than a number of petty schemes, here and there, which may not serve as permanent measures in any part.

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- B. A. Desai.

President,
Municipal Borough, Dharwar.

Sub.No.2.

To consider the question of requesting the Govt.of Bombay to undertake immediately the work of " Neersagar Scheme " and also to send a deputation from this Municipality to wait upon the Govt. of Bombay for the same.

Proposed by Mr.B.A. Desai.
Seconded by R.S.B.P.Tambad.

In view of the fact, that Karnatak has been all along a neglected part of the Profice and also in view of the urgent neces-sity and needs of the rapidly growing population of this City and to avert the constant fear of scarcity of water, and the incapacity of this Body to undertake such a huge Scheme, though urgent & essen-tial, this Body earnestly requests and urges the popular Govt. of Bombay to undertake immediately " The Neersagar Scheme " which will abundantly secure sufficient water to Dharwar & Hubli Municipalities, besides, irrigation.

It is further resolved that a deputation consisting of Mr.B.N. Bendigeri, President and Mr.B.R. Kulkarni & Mr.A.A. Maniyar, two Municipal Councillors should wait upon the Govt. of Bombay to represent this cause. The costs of the deputation be borne by the Municipality.

It is further resolved that this body requests Mr.R.H.Good-wala, Municipal Councillor of this Borough & M.L.A. and the other M.L.As. & M.L.Cs. of the Dharwar District to join and help the deputation in this respect.

Amendment proposed by Mr.C.S. Kempannavar.

that it was not necessary to send the deputation in this connection and so the portion relating to the sending of deputation be deleted.

The amendment is withdrawn by the proposer.

At this stage M/S. C.S. Kempannavar & S.D. Goudar left the meeting with the permission of the President.

The President has divided the proposal into three parts as follows :-

1st part of the Proposal. G.B.R.No.900(a) of 10-8-46.

In view of the fact that Karnatak has been all along a neglected part of the Province and also in view of the urgent neces-sity and needs of the rapidly growing population of this City and to avert the constant fear of scarcity of water and the incapacity of this Body to undertake such a huge scheme, though urgent & essential, this Body earnestly requests and urges the popular Govt.of Bombay to undertake immediately " The Neersagar Scheme " which will abundantl secure sufficient water to Dharwar & Hubli Municipalities,besides - irrigation.

IInd part of the Proposal. G.B.R.No.900(b) of 10-8-46.

It is further resolved that a deputation consisting of Mr.B.N. Bendigeri, President, and Mr.B.R.Kulkarni & Mr.A.A. Maniyar two Municipal Councillors should wait upon the Govt.of Bombay to repre-sent this cause. The costs of the deputation be borne by the Municipality.

IIIrd part of the Proposal. G.B.R.No.900(c) of 10-8-46.

It is further resolved that this body requests Mr.R.H.Good-wala, Municipal Councillor of this Borough & M.L.A. and the other M.L.As. and M.L.Cs. of the Dharwar Dist. to join & help the deputation in this respect.

No amendments were moved to the 1st part of the proposal. It was put to vote and carried unanimously.

No amendments were moved to the II part of the proposal. It was put to vote; 16 voted for & 5 against. Carried by majority.

No amendments were moved to the III part of the proposal. It was put to vote, and carried unanimously.

Chief Officer,
Municipal Borough, Hubli.

Sub. No.8. G.B.R.No. 901 of 10-8-46.

To consider the question of requesting the Govt. of Bombay for supplying electric energy immediately to the citizens of Hubli & Hubli Municipality.

Proposed by Mr. B.R. Kulkarni.
Seconded by " S.G. Nagajikondi.

In view of the fact that Karnatak possesses vast natural resources and the absolute necessity of industrialization of Karnatak in general and this premier city in particular, this Body earnestly requests the Govt. of Bombay to make available at cheap rate the electric energy from Gerasappa Falls.

And in the meanwhile this body requests the Govt. of Bombay to supply the required machinery to the Local Hubli - Electric Supply for its immediate needs.

The deputation referred to in part II of the previous resolution should also represent this cause to the Govt. of - Bombay.

No amendments: put to vote; carried unanimously.

Sd/- B.N. Bandigeri.

President,
Municipal Borough, Hubli.

Subject:- Supply of water from Neersagar and electric energy from Gerasappa Falls.
Deputation by the Hubli Municipality to wait upon the Govt. of Bombay to represe

No. S.G.S.R.D.1.

Office of the
Municipal Borough, Hubli.
D/- Aug.26, 1946.

From,

B.N. Bendigeri. Esq. B.A.LL.B.
President,
Municipal Borough, Hubli.

To,

A.J. Dodameti. Esq.
M.L.A., Jakkali.
(Taluka Ranebennur).

S i r,

In enclosing herewith the copies of the General Body Resolutions Nos. 900(a), (b) & (c) and 901 dated 10-8-46, passed by this Municipality on the above subject, I have the honour to request you to be kind enough to help the municipal deputation to represent to the Govt. of Bombay for undertaking immediately the Neersagar Water Supply Scheme and also to make available at cheap rate the electric energy from Gerasappa - Falls.

Most probably, the deputation of Hubli & Dharwar Municipalities shall jointly wait upon the Govt. of Bombay.

With a view to keep you in touch with the Water Supply situation at present at Hubli, I may add the following few lines :-

As the rains have so far failed in the catchment area of Unakal tank, the said tank is not replanished with fresh water this year. If further rains during the months of September & October also fail, there is every possibility of the scarcity of water supply to the town. In order to avoid the constant dread of scarcity of water supply to the town, it would be a great boon to the citizens of Hubli, if the Govt. undertakes immediately the execution of the Neersagar Scheme.

Your obedient servant,

President,
Municipal Borough, Hubli.

Please may be
VND
11/9/46

Forwarded with compliments to the Honble Dr. P. V. D.
& Health for consideration. The undersigned need not
say anything further. save the difficulty of getting drinking
water for Dharwar & Hubli is a long standing one

and it has now aggravated owing to increase in population. In view of this further it is hoped the Govt will take immediate steps to provide water. The undersigned strongly supports the above demand re: electric supply.

1001
11/9/66

Subject:- Neeranagar Water Supply Scheme for the Towns of Dharwar and Hubli.
Putting into execution of - -
...

No: 5278 of 1946-47. Municipal Office,
Dharwar, 16-1-1947.

24.

From

Shreemant B. A. Desai,
President,
Municipal Borough, Dharwar.

To

The Hon'ble the Prime Minister,
Government of Bombay, Bombay.

Sir,

I have the honour to bring to your kind notice, with regret, the inordinate delay and procrastination in putting into execution the Neeranagar Water Supply Scheme designed to provide a permanent source of much-needed and long-awaited drinking water supply to the towns of Hubli and Dharwar. The two towns have been undergoing untold hardship for the last so many years in consequence of the inadequacy of water supply and you can very well realise what an amount of anxiety the postponement of the scheme is causing to the public of the two towns, in general, and to those responsible for the water supply, in particular.

Please permit me to recapitulate the various promises held out by the Government of Bombay which have remained unfulfilled even to date.

As a result of continued agitation and numerous representations from time to time the Government of Bombay realised the imperative need for launching the scheme and made a mention of the same at page 18 in the pamphlet "Planning for the future of the Bombay's Country Side" as one of the big responsibilities of the Bombay P.W.D., giving it the first priority.

Further on, in the pamphlet on "Post War Reconstruction issued on 31-3-1945, the Government has assured that the Neeranagar Water Supply Scheme has been included in the first five years' plan, in view of the extreme urgency of providing adequate water supply to the two towns. His Excellency the Governor of Bombay in his reply to the Civic Address presented

to him by this Municipality on 11-1-1946 assured us that the highest priority will be given to the scheme.

Then the Public Health Engineer to the Government of Bombay in his No. S.W./3/17/1/29 of 5-4-1946 informed this Municipality that detailed plans and estimates of the scheme were ready and being submitted to Government for their sanction and hold out the hope of starting the work during May 1946 or from October 1946, immediately after the monsoons. The same Officer informed us in his letter No.6078 of 26-9-1946 that the first part of the Neeralagar Water Supply Scheme has been submitted to Government and that he is awaiting sanction.

In reply to the Civic Address given by this Municipality on 28-9-1946 the Prime Minister and Dr. Gilder - Minister for P. W. D. - were pleased to assure us that the actual construction of the Neeralagar Water Supply Scheme will be undertaken by the end of 1946. So also the Minister for P. W. D. gave a similar promise in the Bombay Legislative Assembly to Mr. R. H. Gocdwala, M. L. A., that the execution of the scheme will be taken up before the end of the year 1946.

In spite of the various hopes and promises detailed above, the Public of Hubli and Dharwar note with dispair that the scheme has not yet been started, though the year 1946 is over. I may bring to your kind notice that the patience of the Public of both the towns has been stretched to the utmost extent at the way they are being tantalised. As against this background, the replies given by the Hon'ble Dr. Gilder to the President Hubli Municipal Borough on his visit to Hubli on -1-1947 that the scheme has not been taken up for want of sufficient technical personnal, have worsened the position and we cannot help feeling keenly disappointed.

I learn that similar schemes in other parts of the Provinces have been already taken up and are far advanced. We fail to understand why the paucity of technical staff should arise in our case only. Even we may go to the extent to assure you that we are prepared to supply you the necessary technical staff that may be needed and I, on behalf of the citizens of

Dharwar, once again urge on your kind attention the vital urgency of the early execution of the scheme and request you to kindly order it to be taken up at an early date, without any further loss of time. I have every hope and confidence that you will kindly do all in your power to start the work forthwith and earn the heart-felt gratitude of two lacs of persons, who have been looking up to you to help them to tide over the nominal difficulties.

I have the honour to be,

Sir,

Sir,

Subject: Neersagar Water Supply Scheme for Dharwar & Hubli Towns.

I have the honour to forward herewith a copy of/letter No. 6250/36-I dated 20th instant received from the Deputy Secretary to the Government of Bombay, Public Works Department, concerning the subject stated above.

I may state on this behalf that the urgent necessity of water supply to these important towns of Karnatak have been long delayed and I request you to please show personal interest in expediting immediate sanction as otherwise this year may also pass on without any execution of the scheme as the rains may set in very soon.

In my interview with Public Health Engineer in February 1947 he told me that a seperate Sub-Division Office will be started from 1-4-1947 for this purpose.

From Press report it was given to understand that the work was sanctioned.

Kindly do the needful in the matter.

N.B. General Sub-Division office is opened from today (Public Health Branch)

I have the honour to be,
Sir,
Your obedient servant,

President,

Government of Bombay,
Bombay.

Sir;

I beg to invite your kind attention to your letter No.6250/36-M dated 21st April 1947 (copy enclosed) regarding the progress of the Neerasagar Scheme. It was a pleasure to learn from news papers that administrative sanction has been accorded to the scheme. But so far no authoritative communications has been received by the Municipality. The Municipality would be much grateful if it is acquainted as to where the matter stands and is very anxious to learn the immediate execution of the Scheme. No Sub-Division has been opened and no Engineer is exclusively in-charge of the Scheme in so far as my information goes. The public is approaching me daily with various and aukward quarries regarding the early actual start of the work.

I therefore request you to kindly let me know the progress in the matter.

Thanking you.

I have the honour to be,

No. 1787 of 1947-48

Municipal Office,
Dharwar, 27th June 1947.

From

S.S.Matti, Esqr., B.A., LL.B.,
President,
Municipal Borough, Dharwar.

To

Dr.M.D.D.Gilder, M.D.,
Minister for Public Health and P.W.D.,
Government of Bombay,
Bombay.

Sir,

I beg to invite your kind attention to your letter No. 6250/36-M dated 21st April 1947 (copy enclosed) regarding the progress of the Neerasagar Scheme. It was a pleasure to learn from news papers that administrative sanction has been accorded to the scheme. But so far no authoritative communications has been received by the Municipality. The Municipality would be much grateful if it is accquainted as to where the matter stands and is very anxious to learn the immediate execution of the Scheme. No Sub-Division has been opened and no Engineer is exclusively in-charge of the Scheme in so far as my information goes. The public is approaching me daily with various and awkward querries regarding the early actual start of the work.

I therefore request you to kindly let me know the progress in the matter.

Thanking you.

I have the honour to be,
Sir,
Your obedient Servant,

President,
Municipal Borough, Dharwar.

Bombay.

Subject :— Neer sagars scheme in Dharwar District.

Sir,

I have the Honour to bring to your kind notice that your letter to Mr A. J. Doddanali M-L-A. dated 21st April 1947 on above subject says that the said scheme is "under sanction of government."

But though more than two months have passed there seems no progress as yet in that matter as to my knowledge.

12th. From the letters of the president of Dharwar municipal Borough, it seems, that the above Borough, though a concerned one, is not informed as to where the matter stands. And also it seems that no sub-division is yet opened & no Engineer is appointed to take exclusive charge of the said scheme.

I hope that the Hon. minister will be more quick to take immediate action in this matter; at least, as it is a scheme to supply water to two important cities of the Karnatak, where nearly 150,000 people are living.

I beg to remain, sir,
your obedient servant

D Basav Kallapur

Dear Doctor Gilder,

From the personal querries made to you by the members of the Assembly from this Dist. and from the letters written to youby the Dharwar and Hubli Municipali-ties, and the representation made to Govt through every public address given to the various Ministers that visited Dharwar and Hubli during the last two years, you must have realized the keeness with which the people of these two towns have been looking to the proposed Water Supply Scheme. Every time we are told that the Scheme is sanctioned and the actual work will be started soon. You have been writing to these Municipalities almost in the same tone. When the members of the Assembly saw that thewater supply scheme had found a place in the current year's Budget they thought that the work would surely begin this year atleast. But till now no sub-Division for the scheme is opened here, and the Engineer who is specially posted for water supply schemes in the Dist., is not given any instructions in this connection. I shall be very thankful to you, if you can give definite reply as to when exactly the scheme would be taken up.

Personally I know the difficulties. But it is very difficult to satisfy the public which is already losing confidence on account of the food and cloth shrtage. Inspite of the efforts of the members of the Legislature to explain the food and cloth situation, they credulously believe that it is due to the Congress Govt.

Under such circumstances I only pray that the Ministers should not raise false hopes amongst the public by offering a number of schemes. In this particular case if on account of the difficulties of securing Engineers - as you once said in a meeting in Hubli - or on any other account, if the Govt is unab le to take up the scheme, let it say so. We shall be able to tell people boldly the difficulties in our way. You will please excuse me for frankly placing the situation before you and inform me the real state of affairs.

Dharwar

Dharwar, 21st Nov 1947.

To

Dr. M.D.D.Gilder, M.D.,
Minister for Health,
Government of Bombay, Bombay.

Sir,

I have the honour to draw your attention to an item of news appearing in the Samyukta Karnatak of 2-11-1947 in column 5 page 4 regarding the Neera sagar Scheme for supplying water to Hubli and Dharwar. The news has created a good deal of concern and disappointment amongst the public of Dharwar. In this connection it is necessary to study the present water supply of Dharwar. Without any contradiction it may be stated that the water supply of Dharwar is most un-hygenic and devoid of any attempt at supplying a good, clear and purified water. The Kelgeri water works started in the year 1910 and meant only to provide a population of not more than 35000, is now, found to be in-adequate. Even then, the water in the tank is exposed to all sorts of infection, there being no restriction on the people in the village to get directly to the water in the tank. Not only that, even the cattle have access to the water without any hindrance whatsoever. And this water that is pumped for being supplied to the public of Dharwar. The water is neither filtered nor treated scientifically with chlorine. As a result many water-borne diseases are prevalent in the city. Typhoid, para-typhoid, Dysentery and diarrhoea are commonly met with through-out the year. It is true that many people do not use this water for drinking purposes; but this does not mean that the water of the tank does not find its way internally. The milkmen and the soda water factories are not expected to be scrupulous enough not to use the water for their trade.

Apart from Kelgeri water works, there are some sweet water wells which supply the public with drinking water. But these wells are situated on the banks of tanks, the waters of which are not at all above suspecion. On the other hand it can be proved that the waters of these tanks are positively harmful. There is very little difference between the waters

in the wells and the tanks near-by. Consequently, the above diseases are prevalent as endamic. It is therefore very urgent that the Government should take up the scheme in right earnest to ensure a good purified water supply to the citizens of - Dharwar which happens to be a district place.

Yours obediently,

K.S.Kamalapur

2. The foregoing letters addressed to the H.M., P.W.D. by the President, Munpl. Borough, Dharwar and M/s. R.S.Hukkerikar, N.S.Desai, M.L.C. and Dr. K.S.Kamalapur compalin about the dYelay on Govt.'s part in issuing definite orders in reg: to the Neersagar Water Supply Scheme and opening a sub-dn. for starting the work in con. therewith. Receipt of all the letters has been acknowledged.

3. The Ps. & Es. in respect of the above Scheme were returned to the P.H.E. for modifying them in the light of the Sectt. remarks. They have since been received from the latters and ~~xxx~~ have been found on scrutiny to be in order. Another obstacle in issuing definite orders giving administrative approval and technical sanction to the Schemes ~~xxxxxxxxxx~~ was the reluctance on the part of the Hubli Muny. to accept without reservation the provisional and actual rates for supply of water at a fixed point proposed by Govt. and to their revision every five years. The Hubli Muny. has since accepted the rates unconditionally and orders according administrative approval and technical sanction to the project will issue shortly. The main file in this con. with necy. draft orders has been submitted separately. A ~~x~~sub-dn. has already been opened in con. with the Scheme.

The attached reply may, if approved, issue.

No. SW-3-27/861 of 1948.

Poona, 27th January 1948,

To

The Secretary to Government,
Public Works Department, Bombay.

Subject:--Neersagar Water Supply Scheme.

Reference - Government letter, P.W.D. No.6250/36-III-M, dated 23rd December 1947.

2. In reply to the above Government reference, the Municipality of Hubli has already resolved to accept the Govt. terms without any condition, and has forwarded their board's resolution also under the President, Muny's No. S.E.S.R.D./ dated 24th Dec 47 copy already endorsed to you direct. With the receipt of this municipal resolution, I understand that the necessary formalities to start the work are now complete, and I now request you to obtain Government approval and technical sanction to the scheme as early as possible. Please refer in this connection to ~~xxx~~ correspondence ending with my letter No.SW.3-27/9301, dated the 15th December 1947. Government have already provided a large sum of money for the above scheme in the current year's budget, and it is very desirable that we should utilise the present working season and make a start with the scheme as early as possible. If the technical sanction to the scheme is likely to be delayed, Government may please authorise me to take up the work for construction in anticipation and place necessary orders for the pipes, machinery etc., as this will take a long time to obtain and it is therefore urged that early orders be passed in the matter. It is also desirable to start construction of the staff quarters which form part of the scheme immediately, so that they can be utilised for housing the staff and the store the articles required during construction. Early orders of Government are requested.

3. For opening the new division and the sub-divisions to tackle this important urgent scheme, I have already expressed my views in my letter No. 3140, dated 28th April 1947 and in my No.9301, dated 15th December 1947 referred to above, and I would request Government to pass early orders on this also.

Public Health Engineer
to Government.

File No. 6250/B
Serial No. 4933

(Extracts from the address presented by the Hubli Municipality to His Excellency the Governor of Bombay on the 17th October 1947.).

"We express our sincere thanks to your Government for undertaking the Neera-sagar water Scheme. In view of the fact that Govern-ment would have given the Municipality a free grant of a sum to the extent of 1/3 to 1/2 of the cost of the scheme if the Municipality itself had undertaken the scheme. We request that the rate at which the water should be supplied, should be based on half of the investment to be made by the Government and the cost of maintenance.

In spite of the best efforts of this Municipality, we have not been fortunate enough in procuring electric energy for street lighting. The Electric Power Supply of this city is under the control of the Government since 1944. But the Government has not made the electrical energy available to us. We request that the energy from Jog Falls be made available to this District as early as possible at the cheapest rate so that the vast natural resources can be developed and the various industries may be started in this District."

ISSUED
on 26-4-48

No. 1406 of 1943.
Poona, 10th February 1943.

To

The Secretary to Government,
Public Works Department, Bombay.

Subject:- Establishment for the Sanitary Project Sub-division

Please refer to my letter No. A1-33/806 dated 25th and 26th January 1943 and early approval for the appointment of Overseers Messrs. Pochara (B.E. Civil) and Pomat, may please be given. Orders were issued to other two Overseers Messrs. Apte and Risbud but they too have not joined even though reminded by me. It will therefore appear -- that the salaries offered by me, though much higher than the -- sanctioned, fall much below the present day salaries offered by contractors and the military department. It has been brought to my notice that salaries between 125 to 150/- p.m. are offered to fresh engineering graduates, so there is not much hope of my getting -- Overseers and Surveyors for the newly opened Sanitary Project Sub-Division unless the minimum scale of pay be raised to Rs 120/- p.m.

P.T.O.

This is necessary in view of the urgency of submitting plans and estimates for the joint water supply Scheme for Hubli and Dharwar before March 1943. I therefore request you to permit me to -- appoint Overseers on temporary and work-charged establishment on the following scale of pay as a temporary measure.

Rs. 120/- p.m. starting salary	Fresh graduates in Engineering.
Rs. 80/- p.m.	Diploma Holders in Civil Engineering.

Yours faithfully,

Consulting Public Health Engineer to Government.

Copy of letter No.A-1-33/806 dated 28th January 1943 from the Consulting Public Health Engineer to The Secretary to Government, Public Works Department, Bombay, regarding appointment of Overseers and Surveyors in the Sanitary Project Sub-Division.

"With reference to Government letter No. 6250/36 E dated 5-1-43, I have the honour to report that in these days it is very difficult to secure services of competent surveyors and overseers on the pay-scales sanctioned therein. The duties required to be performed by these men in the project sub-division are of a specialist nature and are very streneous. To overcome this difficulty and with a view to employ competent staff for the work I had recommended the starting of surveyors Rs 150/- vide this office No. 10691 dated 18-11-42 and S.W.-3-27/11283 dated 5-12-42. I therefore request that a better scale of pay may at least be sanctioned for the two senior overseers (styled Surveyors) starting from Rs 150 viz. 150-10-250.

I have in view one Mr. M.R.Pochara, B.E., for appointment against one of the two posts of Senior Overseers. He was formerly -

P.T.O.

employed in this Department for about 16 months on the work-charged establishment, on the New Kirkee Water Works. On completion of these works he was appointed by the Ahmednagar Municipality on the filtra-tion scheme. Subsequenly he was employed by the Bombay Municipality as Temporary Inspector, Bombay Water Works, Survey Branch, in the scale of Rs 150-10-250 plus Rs 20 C.A. In this post he was working for about six months from April to November 1942. He is at present in the employ of Messrs. Gannon Dunkerly & Co. on Rs 150/- p.m. From my personal experience of him, he is a very competent hand and I recommend that his appointment as overseer on Rs 150/- p.m. in the scale proposed above may kindly be sanctioned."

No. A-1-33 2153 of 1943. Poona, 8th March 1943.

Forwarded with compliments to the Secretary to Government, -- Public Works Department, Bombay, for information as desired in Govern-ment letter P.W.D.No.6250/36-E dated 1-3-43.

E.B.

Submitted with reference to G.L. No.6250/36-E, dated the 1-3-43. ?

2. In the circumstances explained, the C.P.H.E. to Govt requests that he may be authorised to appoint overseers on tempy. and work charged estabts. on the following scale of pay as a tempy. measure:-

	Starting pay p.m. Rs
Fresh graduates in Engrg.	120
Diploma Holders in Civil Engrg.	80

The revised scale of the B.S.E.S. is as under:-

B.S.E.S Rs 50 (for a probationer) - 1 year.
Rs 54-4-90-E.B.-4-130-5-150
(Selection grade of 3 % on Rs 175 p.m.)

3. The S.Es. of Circles have been authorised to make apptts. of tempy. overseers upto the maximum limit of Rs 100 p.m. in the case of graduates in Engrg. and Rs 70 p.m. in the case of Diploma Holders subject to the condition that no increment should be granted to them nor they should be confirmed without the orders of Govt. vide G.M.No.4126/36-E, dated the 29-10-41. These powers are not exercised by the C.P.H.E. as he has no powers of a S.E. Owing to the opening of the Sanitary Project Sub-dn. and the preparation of the Jamihal Water Supply Scheme, the C.P.H.E. has to make recently some apptts. of overseers . Almost all the appointment of overseers have been made by the C.P.H.E. and the question of approving the pays offered by him is separately under consideration. It has been decided to ~~consideration~~ transfer two overseers to the P.H.Branch - one from the Central Circle and one from the Deccan Irrign.Circle. The proposal of the C.P.H.E. to sanction a scale of Rs 150-10-250 for two senior overseers (styled surveyors) has been negatived. The Supdg.Engr., Central Circle has separately proposed that the starting pays of graduates in Engineering might be Rs 150 and that of Diploma Holders Rs 100 p.m. The proposals made by the Supdg. Engr., Central Circle are under consideration on file No.2648/36/29977 which has been submitted separately. Further developments thereon may be awaited.

Resubmitted.

2. Pl.see the draft letter calling for certain information from the S.Es. in File No.2648/36 put up. The case of the C.P.H.E.is not quite similar to that of the S.Es. He has got only two pt. Overseers under him; the others are on the tempy.or work charged estabt. The difficulty mentioned in the linked file will however also arise in the case of the C.P.H.E. The draft put up may issue, if approved.

Letter.

To

The Secretary to Government,
Public Works Department, BOMBAY.

No. A.1-33/ 7243 of 1943. Poona, 19/7 July 1943.

Subject:- Starting pays of Overseers.

-oOo-

Reference:- Govt. letter P.W.D. No. 6250/36-E dated the 22nd May 1943.

-oOo-

The number of permanent, temporary and work-charged - -- overseers and the particulars regarding their pays, period of ser--vice etc., are as under :-

Permanent Overseers - (2).

1. Mr. S.A. Khadilkar,)
2. " J.K. Joglekar,) These two overseers are consi--derably senior in service and the - pay of the first is Rs. 250/- p.m. and that of the latter is Rs. 220/- p.m.

Temporary Overseers - (11).

1. Mr. R. B. Chitale, Pay @ Rs. 210/- p.m. Considerably senior in service.

1X 2. " D. S. Argade, B.E., Present pay Rs. 114/-. Appointed as an - Overseer on Rs. 110/- p.m. on the tempo--rary establishment from 29-4-1942. His starting pay in this Division was fixed as per G.M. P.W.D. No. 5523/36-E dated 15-3-42.

3. Mr. N. S. Subnis, Pay fixed at Rs. 94/- per mensem as per Government letter P.W.D. No. 6276/36-E dated 4-6-1943.

2X 4. Mr. S. S. Patil, D.C.E., Pay @ Rs. 70/- p.m. fixed as per G.M., P.W.D. No. 4126/36-E dated 18-5-1942.

3X 5. Mr. R. S. Deore, D.C.E., The question of fixation of his starting pay @ Rs. 70/- p.m. is separately under consideration of Government, vide - -- correspondence resting with this office No. 6116 of 18-6-1943.

6. Mr. Y. P. Mandke, Practical man He has been working as a maistry in this Circle since 1925. Looking to his prac--tical experience, he was appointed as an Overseer from 1-4-1940 on Work-charged Establish--ment, and subsequently taken on the temporary esta--blishment from 16-10-1942. His present pay is - -- Rs. 82/- p.m. His name has been included in the state--ment submitted to Government under this office No. 6883 dated 7-7-1943 for relaxation of the condition about the educational qualifications.

4X 7. Mr. D.G. Limaye, D.C.E., - Pay Rs. 70/- p.m.)
8. " B.L. Pomat, B.E., - " Rs.150/- ")
5X 9. " B.G. Walimbe, B.Sc., B.E., - " Rs.102/- ")
6X 10. " S.K. Joshi, D.C.E., - " Rs.100/- ")
11. " M.D. Khurd, B.E., " Rs. 90/- ") These are all very recent appointments and the question of their fixation of their - -- starting pays is sepa--rately under considera--tion of Govt. vide - correspondence resting with this office No. 6883 dated 7-7-1943.

Work-charged Overseers

Work-charged Overseers - (10).

1. Mr. D. R. Ghatpande, Permanent Assistant Draftsman, - - appointed as an Overseer on Work- -charged Establishment with the -- sanction of Government. Present pay Rs.135/- p.m.

2. Mr. B. S. Kalsee, Pay fixed by Government at Rs. 70/- P.M. vide Govt. letter P.W.D. No. 6304/36-E dated 30-3-1943.

3. Mr. G.M. Kale, - Pay Rs. 100/- p.m.
4. " V.P. Deshpande - Pay Rs. 66/- "
5. " R.V. Sonpura, - Pay Rs. 60/- "
6. " G.T. Paseband, - Pay Rs. 100/- "
7. " V.J. Masarwalla, Pay Rs. 100/- "
8. " M.G. Savadatti,- Pay Rs. 66/- "
9. " K.K. Puranik, - Pay Rs. 82/- "

The question - of the fixation - of the starting - pay of these - -- Overseers has - - separately been - taken to Government under this office No. 6883 dated 7- -7-1943.

10. " V.R. Malegaonkar, Pay Rs. 50/- p.m. Recently appointed with effect from 2-5-1943.

2. The Overseers on Work-charged Establishment such as -- Messrs. D.G. Vaidya, G.L. Deuskar, B.N. Deshpande, P.B. Chandekar and V.V. Date are not at present serving in this branch, since -- they left the services after working for a few months.

3. The appointment of Mr. N.S. Subnis has been made on -- Rs. 94/- p.m. in consideration of his past service in the District Local Board, Nasik, and the starting salaries of Messrs. Limaye, Pomat, Walimbe, Joshi and Khurd have been fixed in virtue of - -- their higher educational standard.

4. It will thus be seen that the grant of a higher rate - of salary to Mr. M. R. Pochara as referred to in this office - -- No. A.1-33/806 dated 25-1-1943, does not affect any of the senior overseers either on the permanent or temporary or work-charged -- establishment, except those whose appointments have been made - - very recently. Even in these cases their pays have been fixed - - with the sanction of Government having regard to the merits in -- each case. In case Government be not pleased to sanction his - -- appointment on temporary establishment on Rs. 150/-, sanction may kindly be accorded to his appointment on work-charged establishment as requested in this office No. 133/D/237 dated 24-4-1943. Mr. Pochara will be clearly given to understand that if in future he be taken on temporary or permanent establishment, his pay will be liable - to revision.

Encl. Nil.

RSB.

Consulting Public Health Engineer to Government.

E.B.

Submitted.

2. ~~Srl.No.22837.~~ Pl.see G.L.No.6250/36-E, dated the 22-5-43 and the notes underlying it. The C.P.H.E.has requested that he may be authorised to appoint overseers on tempy.and work-charged estabts.on the following starting pays:-

	Starting pay p.m Rs
Fresh graduates in Engrg.	120
Diploma holders in Civil Engrg.	80

As the grant of higher starting salaries to new recruits would create difficulties in the case of overseers who are already in service on the pt tempy.and work charged estabts.whose salaries might be less than the higher starting salaries. proposed by the C.P.H.E.for direct recruits, the C.P.H.E.was requested to furnish the information re: the number of such overseers and his proposal to deal with such cases. From the information supplied by him it may be observed that in the P.H.Br there are about 11 overseers (6 tempy. and 5 work charged including 2 non-qualified) whose salaries would be less than the higher starting salaries proposed by him for direct recruits The C.P.H.E.has not stated as to how he proposes to deal with these cases. The question re:(the higher starting salaries to the tempy.and work-charged overseers and the adjustment of the

salaries

salaries of the overseers who are already in service on the pt., tempy. and work charged estabts. and whose salaries would be less than the higher starting salaries that would be sanctioned, are under consideration in files No. 4126/36 Part II which is submitted herewith as a linked case. The decisions thereon may be awaited as the same decisions will be applicable in the case of overseers in the P.H.Br.

Subordinate Service of Engineers:
Revised pay-scale and increase in the cadre of -
Temporary and work-charged establishments: Higher starting pay to -

Government of Bombay.
Public Works Department.
Resolution No.6717/36.
Bombay Castle, 17th July 1944.

RESOLUTION OF GOVERNMENT.

The present sanctioned pay-scales for the Subordinate Service of Engineers are:-

(a) Old scale for old entrants: Rs.60-5-100-E.B.-10-170--E.B.-10-250 with Rs.275 as selection grade for 3 per cent of the cadre.

(b) New scale for new entrants: Rs.54-4-90-E.B.-4-130-E.B.-5-150 (after one year's probation on Rs.50) with Rs.175 as selection grade for 3 per cent of the cadre, the starting pay admissible to an engineering graduate being Rs.70 after one year's probation on Rs.50.

In lieu of the above scales, Government is now pleased to sanction the following revised scale with effect from the 1st July 1944 (i.e. revised pay to be drawn on the 1st August 1944) and the members of the Subordinate Service of Engineers (permanent Overseers and Surveyors) should be brought on to the revised scale and their pay regulated therein in accordance with Bombay Civil Services Rules 41(a)(ii) and 44(a):-

Rs.70-5-110-E.B.-10-180-E.B.-10-250 with Rs.275 as selection grade for 3 per cent of the cadre, the starting pay admissible to an engineering graduate being Rs.120 after one year's probation on Rs.70.

2. The pay of temporary and work-charged subordinates (Overseers and Surveyors) should also be regulated in the revised scale sanctioned above but, in their case, special orders are passed as follows:-

The Superintending Engineers of Circles (including the Superintending Engineer, Project Circle) are authorised to grant fixed starting pays in the revised scale (plus compensatory local allowance, dearness allowance, etc., admissible under the rules) to subordinates to be appointed on the temporary and work-charged establishments at rates higher than the pays arrived at on the basis of their previous service, if any, in accordance with paragraph 7 of Government Circular Memorandum No.2648/36, dated the 25th September 1941, subject to the maximum limit of Rs.180 in the case of graduates and Rs.110 in the case of diploma holders, provided they possess the recognised qualifications as prescribed in rule 62 in appendix D of the Bombay Civil Services Classification and Recruitment Rules Manual. These temporary and work-charged subordinates who are given special rates of pay should not be granted any increment or be promoted to the permanent establishment without the orders of Government.

The Superintending Engineers are also authorised to revise the pays as above where necessary in the case of temporary and work-charged subordinates already serving in the

Department

Department subject to the same restrictions, the revised pay taking effect from the date of the orders passed by the Superintending Engineers, i.e. without retrospective effect.

2. These orders are issued in amplification of those included in Government letter No.6717/36-E, dated the 25th May 1944, addressed to the Superintending Engineers of Circles.

3. The present sanctioned cadre strength of the Subordinate Service of Engineers in each Circle, including the temporary and work-charged posts of Overseers and Surveyors made permanent by Government Resolutions No.3260/36, dated the 19th November 1943, and No.3486/36, dated the 19th November 1943, has been found to be far below the number required for efficient working even in respect of the normal pre-war activities of the Department. Apart, therefore, from the special temporary staff required for the Post-War Reconstruction Programme, Government is pleased to increase, but only on a temporary basis for the present, the permanent cadre strength of the Subordinate Service of Engineers in each Circle to carry out the normal activities of the Department and fix it as follows:-

Name of Circle.	Sanctioned increased cadre strength of the Subordinate Service of Engineers.
Northern Circle.	93
Central Circle.	94 (excluding the 3 posts of Mechanical Overseers).
Deccan Irrigation Circle.	126
Southern Circle.	96

The distribution of the above increased number of permanent posts in each Circle is left to the discretion of the Superintending Engineer concerned.

4. The Superintending Engineers of Circles (including the Superintending Engineer, Project Circle) are authorised to grant fixed starting pays in the sanctioned pay-scales (plus compensatory local allowance, dearness allowance, etc., admissible under the rules) to temporary and work-charged men to be appointed to the categories of posts mentioned in the

Designation of posts.	Sanctioned pay-scale. Rs.	: margin at rates higher than the pays arrived at on the basis of their previous service, if any, in accordance with the provisions of paragraph 7 of Government Circular Memorandum No.2648/36, dated the 25th September 1941, subject to the maximum limit of Rs.50 per mensem, provided the men appointed to the clerks' posts are qualified according to the rules. These temporary and work-charged men who are given special rates of starting pay should not be granted any increment or be promoted to the permanent establishment without the orders of Government.
Clerks.	25-5/2-50-E.B.-5/2-65.	
Sub-division-al clerks.	25-5/3-75. 25-5/4-55.	
Computors.	25-2-55-3-70.	
Tracers.	25-2-55-3-70.	

The Superintending Engineers are also authorised to revise the pays as above where necessary in the case of temporary and work-charged men already serving in the Department

subject...

subject to the same restrictions, the revised pay taking effect from the date of the orders passed by the Superintending Engineers, i.e. without retrospective effect.

5. The Superintending Engineer, Project Circle's action in granting higher starting pays in anticipation of the orders included in paragraph 4 of this Resolution, is approved.

By order of the Governor of Bombay,

J. R. PHILLIPS,

Deputy Secretary to Government.

G.R. No.6717/36, P.W.D. dated the 17th July 1944.

No. 9049 of 1948
Date 13th October 1948.

To

The Superintending Engineer (Hydro)
Electric Grid Office, Foreshore Road,
Bombay 1.

Subject: Neersagar water supply scheme for Dharwar & Hubli - Power supply from Jog Falls -

Reference: This office No. 5744 of 30th June 1948.

...

With reference to above I have to inform you that quotations for the oil engined units for the 1st stage of the scheme have been received. The quotations have been scrutinised and I am on the point of placing order. This scheme will start functioning in 1952. Will you please therefore let me know whether Electricity from Jog Falls will be available during the above year for working the pumps. In case power from Jog is not possible then please let me know if you can supply electric power from oil engined units. I have to order out the plants and in case you are definite about supplying Electric Energy in 1952 I shall order only one oil engined unit for each pumping station and order one Electrically driven set. An early reply is therefore requested.

The voltage phase and cycles of the electric power that will be available may please be supplied.

sd/-
Public Health Engineer,

ENCLOSURE II

The power requirements for the Neersagar Water Works are as follows :

	At Neersagar	At Dharwar	Total
I Stage (for about 7 years after starting scheme).	750 B.H.P or 570 kW	170 BHP or 120 kW	690 kW
II- Stage	1600 BHP or 1200 kW	360 BHP or 270 kW	1470 kW

J/27.10.

No. ELG-52(2)/ 1700
Electric Grid Offices,
Foreshore Road,
Bombay 1, 29 October 1948.

To

The Secretary to Government,
Public Works Department, Bombay.

Subject: Neersagar Water Supply Scheme for Dharwar & Hubli - Power Supply from Jog Falls -

.....

The Public Health Engineer to Government in his letter No. 9049 of 18-10-1948 (copy enclosed - enclosure I) desired to know whether Electricity from Jog Falls will be available during the year 1952 for utilisation on the water supply scheme for Hubli & Dharwar. His power requirements are given in enclosure II hereto.

2 If approved he will be informed that this office note on power supply from Jog is under the consideration of Government. He will be further advised that even if the scheme is sanctioned in the near future, Jog power supply is not likely to be available till 1954-55; he should, therefore, instal Diesel pumps in the first instance but select the plant in such a manner that the pumps could be driven by Electric motors if and when Hydro Power Supply is made available.

No. 274 of 1949.

Camp:Dharwar, 19 January 1949.

To

The Executive Engineer,
Gangapur Storage Reservoir Division,
N a s i k.

Subject:- Neersagar Water Supply Scheme for Dharwar and Hubli.

Land required for the above Scheme will be soon handed over to us. My Executive Engineer has taken about a dozen trial pits to know the nature of strata that will be met with during the excavation of dam, waste weir and tail channel. We have already sent these samples to College of Engineering, Poona and Executive Engineer, Poona Irrigation & Research Division for analysis and advice. From the conversation I had with the Secretary to Govt. (Irrigation) I feel that you will be better able to assist us by analysing these samples in your laboratory and advising us on the proportion of soils to used in puddle trench, core wall etc. I have therefore instructed my Executive Engineer, Karnatak Sanitary Division to send you one batch of samples for analysis and I shall be very thankful if you will analyse them early and give your advice in the matter.

I have also instructed my Executive Engineer to visit Gangapur after a fortnight and discuss personally various matters with you and settle final proportions.

Public Health Engineer
to Government.

D.A.Nil.
KPS:19:1:

Copy forwarded with compliments to the Executive Engineer, Karnatak Sanitary Division, Dharwar for information and necessary action as instructed during inspection. After the samples are sent Executive Engineer should visit Gangapur by appointment and see how Mr. Dhanak has finalised various matters for his work. He should also settle soil ratios for various items after discussion with Mr. Dhanak and on return should see me in Poona to finalise.

Copy forwarded with compliments to the Secretary to Govt. P.W.D. Bombay for information. Results of soil analysis from Poona Engineering College and Executive Engineer, Poona Irrigation & Research Division are yet awaited. They have been expedited.

W.B.

The P.H.E. to Govt. p1 states that due to shortage and non-availability of cement at present, a change from cement to lime was ordered in the specifications in the estimates for the work of construction of quarters under the Neersagar Water Supply Scheme. In the para-2 of his letter, he requests authority to use lime in place ~~in place~~ of cement wherever possible for the whole Scheme of Neersagar Water Supply. He also states a precedent in which a Similar proposal of the S.E., S.C., was approved in the G.L. No. 8315/36-II-W, dt. 17th January 1948. In the circumstances, it is for consideration whether the P.H.E's proposal may be approved. On receipt of orders the necy. draft will be put up.

* ib 8315/36 II p. 119

Thro M.B., D.E(B) and DE(P.H).

2. The difficulty due to shortage of cement is genuine and the proposal of using lime in its place, may be approved.

3. It may however be made clear that for those Component structures of the scheme which will be directly in contact with water viz. dam, waste-weir, approach and tail channels, curtain walls etc; cement may be advocated to be used as far as possible. In its absence,

10/11/48 Lord 11/11/48 Rgl 11/11/48

C.S. (P&A)

hydraulic lime of proper strength may be an alternative substitute. Availability of right type of lime mortar in the vicinity of the site of works, will have to be investigated by the P.H.E.

4. Neeragar L.S. scheme is a fairly big scheme and many such alterations may be required during execution. The revised estimate will have to be prepared in due course, for Govt. approval and sanction.

GMA 13-11-48

5. The P.H.E.'s proposal authorizing him to carry out the work of Quarters only on 'no cost' basis may be approved. For rest of the works he has proposed to call alternative tenders which may be submitted in comparative statement to Govt.

GMA 16/11/48

The P.H.E's proposal to substitute lime mortar for cement mortar in the case of the work of the quarters on hand on "no cost" basis may be approved as done in the case of the Agrl. College buildings at Dharwar. In future he may call for tenders with alternative rates for the use of lime mortar + cement mortar but he will have to take special care to see that lime of suitable quality is used in important works.

Subject:- Neersagar Water Supply Scheme.
Change over from cement mortar masonry to lime mortar masonry.
for staff quarters at Dhumwad and Kanvihonnapur.

Reference:- This Office No. S.W.3-27/9318, dated 18th October 1948.

With reference to above, it is requested that Government orders may please be issued very early approving the change over from cement mortar masonry to lime mortar masonry for foundation concrete plinth and superstructure etc., ordered by me for the staff Quarters at Dhumwad and Kanvihonnapur in view of acute shortage of cement.

It was also requested in my above letter that this change over may please be authorised"on no cost basis" only for the works in these contracts already started.

In future tenders, alternate items will be included for use of both lime and cement as was done for the Agricultural College Buildings at Dharwar.

Very early orders of Government on the above are requested.

VERY URGENT

No.S.W.3.27/Tender/258 of 1949

Poona, :February: 1949

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Neersagar Water Supply Scheme.
Construction of staff quarters.
Change over from cement mortar to lime mortar masonry.

Reference:- Government in Public Works Department letter No.6250/36-W dated 3-12-1948.

I am enclosing herewith a statement showing the analysis of rates for 1:6 and 1:5 Cement Mortar and 1:2 lime mortar. Proportions specified in the tender are cement mortar 1:5 and 1:6, while it is substituted by 1:2 lime mortar on the work carried out.

The statement shows that the rate for 1:2 lime mortar works out higher than 1:6 Cement mortar by Rs. 2-4-0 per 100 Cft. There should be therefore no objection in allowing this change to be made on no cost basis.

Wherever a proportion of 1:5 cement mortar is specified in the tender, and 1:2 lime mortar is used in its place, a deduction of Rs. 12-12-0 should be made per every 100 Cft. of mortar used, as will be seen from the statement enclosed. Masonry rates with 1:5 mortar will therefore be suitably reduced.

Another statement showing the analysis of rate for lime concrete (1 of lime mortar to 2 of metal) also shows that the rate for the lime concrete works out practically same as that quoted by the contractor in the tender for 1:3:6 cement concrete, and which is replaced by the lime concrete. Hence there should be no objection in allowing this change also to be granted on no cost basis.

A similar change on no cost basis has been allowed by the Dharwar Division, for the Agricultural College construction. I, therefore, request Government to approve this change and accord sanction to the cost of lime work on the basis stated above.

Public Health Engineer
to Government.

URGENT

Dear Sir,

Re: Neersagar Water Supply Scheme.
- Hume steel Pipes.

We propose to erect Hume steel pipe lining and outcoating plant at Dharwar near the Railway Station instead of Hubli as originally fixed. If this is done it will be advantageous to the Government by saving a considerable amount in transport charges if the pipes are delivered at site from Dharwar. Owing to the present difficult times of getting Railway wagons in large numbers continuously for two years, it is advisable in the interest of the work to select Dharwar by which the transport of wagons will be less by about 12 miles distance from Dharwar to Hubli. It will also save petrol and other expenses required for the transport of pipes from Hubli to Dharwar side on the line.

Our Poona office have collected rough figures which indicate the saving that would effect on the transport of pipes would be Rupees 52,000/- approximately. We request you to consider to pay us the charges of erection of the plant required at Dharwar which would amount to about Rs 47,000/- We have not included the extra expenses of the staff that will be necessary at Dharwar to execute the Humest pipe work. We have got all-ready arrangements at Hubli, where we have not to construct maturing tanks and make other arrangements of the machinery as it is necessary at Dharwar where work would be executed much quicker. Therefore for mutual advantage, we request you to sanction our request for which we undertake to show our cost of erection of the factory at Dharwar.

A rough estimate of the saving in transport expenses is given below:-

Cost of Transport from Hubli to the site: Rs 1,32,000/- (approx.
Cost of transport from Dharwar to the site: 80,000/- (approx.
Saving: Rs 52,000/- (approx.)

At the time when the negotiations were carried on about this order this point was slightly hinted by our Managing Director but now it is the proper time to put before the Government our proposal. You might be aware by using our pipes the Government would save about Rs 8 lacs and the Government would further save Rs 52,000/- if the erection of the plant is done at Dharwar out of which we are claiming about Rs 47,000/-

You will therefore, see that our claim is very reasonable and your urgent sanction is necessary to complete the erection at Dharwar as early as possible. We have already despatched the machinery at Dharwar and the plot is ready to proceed with the work.

Hoping to be excused for the trouble.

We remain,
Yours faithfully,
for The Indian Hume Pipe Co.Ltd.,

Copy with compliments to:
The Secretary,
Public Works Department, Government of Bombay,
Bombay.
